Legal. Done Differently.

OUR SOLUTIONS

ABOUT US

When we started The Legal Collective, we could see that the traditional law model wasn't serving customers or lawyers as well as it should. Businesses wanted greater flexibility and price certainty, while lawyers wanted to make a life, not just a living. We had a simple idea - let them support each other.

Our diverse team of agile legal consultants are united by a shared passion for challenging assumptions and tackling the problems that others ignore. Together, we're inspiring change and creating a happier, healthier, and more sustainable model of legal enterprise - for everyone.

LEGAL EASE. NOT LEAGALESE.

Whether you're looking for ongoing legal support or an interim resource solution, our consultants integrate quickly and seamlessly with your business, delivering the skills and expertise you need, where, when and for as long as you need them.

HOW WE DO IT

In order to give every business access to better legal service, we've taken a radically different approach. Our consultants have the same training and experience you'd expect of a major law firm. But our overhead is much lower (we don't have fancy offices, favouring a more agile model of work), and our service is tailored to your specific needs. The result is greater efficiency with fewer excess costs.
